KLove has given new hope to those who are discouraged with the same old repetitive jargon of the local rock and country stations. I have received personal encouragement from this station because of the music they play and the inspiration they provide through the Bible and music played. Should this station be displaced a great disparity would exist between this type of programming and that of the secular world that provides little if any encouragement and Biblical instruction. Providing this type of programming currently provides our community with a positive outlook on life and help in raising our children and being better citizens in our community. Thank you for considering this in your decision.
